

Dear World Goetheanum Association partners and other interested parties,

We started an initiative called the Liberty in Business (LIB) initiative about 2 years ago: https://www.goetheanum.org/fileadmin/worldgoetheanum/uploads/Liberty_in_Business_2_Pager.pdf

The intention was to awaken to consciousness the significance of the human being in the Economic Sphere of the Threefold Societal Order. We limited the initiative only to this because we know that businesses are finding it more and more difficult to birth and maintain themselves in the current societal situation. Because of this reality they would be more likely to have questions around 'So now what?' or 'Where can I find solutions?'.

Our experience is, that once a few businesses get a handle on Liberty in their Business and then see how it leads to sustainable solutions then they would want the following. Firstly, they would become interested in their own humanity, secondly, they would want Liberty support, and thirdly, Liberty oriented people would have the chance of getting some practical application of their work and then get paid for it. Finally, once business recognises the value of conscious Liberty activity in their solutions and this reflects in their sustainability, the Rights Sphere might wake up too.

A group of us has been working on this and held a seminar in April at the Goetheanum. From this, various approaches have been received for more answers from LIB. We have recognised that it would be good to share these individual requests with a larger group so that more could benefit. We are therefore offering open Learning Hour sessions remotely to see if this would get more interest and spread the potential further into the Societal Order. These open sessions, open to anyone with questions around the real connection of the individual to their role in business, are happening on the following dates and times:

- 16.30-17.30 CET: Tue. 26. Aug. 2025
- 16.30-17.30 CET: Tue. 21. Oct. 2025
- 16.30-17.30 CET: Tue. 02. Dec. 2025
- More will follow if there is a demand.

Meeting-ID: 829 6723 6815

Kenncode: 521299

For a little contemplation, herewith a quote from one of our founding members David:

“I am a businessman who has discovered that the solution to every problem that I have faced in my career is to be found within myself; not within any part of myself physically, but indeed in my spiritual makeup and competence. When I can manage myself inwardly better, I can find solutions and be the source of change that is required from this. The capacity to be able to see oneself in the problem and the solution is the path of bringing the Liberty Sphere as a whole into traction with modern life and modern holistic progress. It is an inner and outward path. It can be defined and engaged to great effect both spiritually and practically.”

You can also find a video on this topic here: [Liberty in Business - Panel discussion](#) (free link for personal use only: https://goetheanum.tv/orders/customer_info?o=144020)

A warm invitation to get in touch, with other business topics and the new possibilities to handle it with more Liberty in Business.

With kind regards,

Andrea Valdinoci for the LIB Team
